The apartment is on two levels, first and second floor, while at the groundfloor, street level, there is an elegant entrance with vaulted brick ceiling, a large room with direct access to a nice private courtyard inside the building and a warehouse through which you access the spacious cellar of 30 square meters located in the basement. The total area is 320 square meters. On the first floor there is a large and bright living room and a spacious kitchen with terrace, very important and rare to find in the medieval villages. Furthermore there are 5 bedrooms, one of them with an en-suite bathroom. The bathrooms in total are currently 3 with the possibility to add 2 more using rooms now used as storage spaces. On the second floor there are two magnificent multipurpose halls with views of the ancient famous towers.
