Lecce (Lecce) - Exclusive property in Vico Vernazza, a few meters from the Church of San Matteo and Porta San Biagio, an entire building on two levels with an independent entrance to the courtyard. The property in full Salento baroque style dates back to the sixteenth century and has been the subject of a skilful renovation which, preserving the details of the age of belonging, has restored the original charm and splendor to the property. It is ideal for tourist accommodation activities as all the rooms have an independent entrance, private bathroom and open spaces.
